

STUDENT NURSE MEDITECH TRAINING

Status Board – Emar - PCI

Status Board

Status Board

When you log on and choose NUR it will take you to a numerical menu. Select #7 to go to the Status Board. The Status Board allows the user to:

- ❑ Launch all routines/functions, including eMAR Desktop and PCI ("Review")
- ❑ Get an overview of pertinent clinical info for all your patients without any clicks, such as:
 - Next med due
 - New results available
 - Last pain med given/documented (Right arrow over once to view)
- ❑ Print Reports
- ❑ Click the boxes to see additional info, such as:
 - The patient's physicians
 - List of scheduled and PRN meds
- ❑ Launch websites via the References button
- ❑ Customize your patient list (Manage List)

Status Board commonly used buttons:

From the Status Board you can access multiple menus and functions from the tabs on the right and on the bottom.

Assessments Tab no longer in use

Allegies: Enter/Edit patients allergies.

Admin Data: Enter/Edit administrative data.

Orders: Enter/Edit/Review patients physician orders.

Process Interventions: where you go to document on interventions such as your shift assessment, I&Os, patient education, leveled care plan interventions (Problem screens), etc...

eMAR: Access Electronic Medication Administration Record.

Review: (PCI-Patient Care Inquiry) View HIM reports (H&P, OP reports...etc...), clinical results, Blood bank products and history, etc....

References: Links to websites such as Clinical Pharmacology, Meditech resources, eMAR references, Vaccine Information Sheets, etc....

Print Report: Print Med Rec, labels, MAR, print profiles, etc....

Patient Notes: Enter/Amend/Undo/View patient notes.

Care Plan: Enter/Edit care plan.

Location: Choose a location (example K.2C) and have ALL patients in that location populate on your Status Board.

Find Patient: Access a single patient, without adding that patient to your list.

Manage List: Customize your Status Board to only show that patients you are assigned.

Buttons on the right side: Allergies, Admin Data, Orders, Assessment, Process Int, Plan of Care, Pt Notes, Print Report, eMAR, Flowsheet, Review, References.

Buttons at the bottom: More, Location, Find Patient, Manage List, Options, More, Exit.

Patient Assignment/Manage List

When you click on Manage List the screen below displays. Note your name will appear at the top automatically. To create your assignment on your Status Board:

1) Type your patient's name in the patient field. The patient search list will come up and you will make the selection .

The screenshot shows a software window titled "NUR.COCGTH (TXAUJUL/TXLTST.PRE.MIS/1310/COCGTH) - CARSTEDT,MAXINE M". The window is divided into two main sections. The top section is labeled "Patient Assignment" and contains a "User" field with a "Clear" button and a "1 of 1" indicator. Below this is a table with columns: "User Name", "Mgn", "Type", and "Skills". The table contains one row with the data: "CARSTEDT,MAXINE M", "MMC", "RN", and an empty "Skills" field. The bottom section is labeled "Patient" and contains a "Patient" field with a "Clear" button and a "0 of 0" indicator. Below this is a table with columns: "Room/Bed", "Current Patient", "Age/Sex", "Acuity", and "Assigned". The table is currently empty. At the bottom of the window are four buttons: "Location", "Assign", "Unassign", and "File". A large red arrow points to the "Patient" search field.

✓	User Name	Mgn	Type	Skills
	CARSTEDT,MAXINE M	MMC	RN	

✓	Room/Bed	✓	Current Patient	Age/Sex	Acuity	Assigned
---	----------	---	-----------------	---------	--------	----------

Patient Assignment/Manage List (cont.)

Click on assign button at the bottom of the screen.
This will place your initials in the assigned column at the right.

When completed click on the file button at the bottom.

The screenshot shows a software window titled "Patient Assignment" with a menu bar containing "NUR.COEGTH (TXAUAIL/TXLTEST.PRE-MIS/1310/COEGTH) - CARSTEDT,MAXINE M". The interface is divided into two main sections: "User" and "Patient".

User Section:

At the top, there is a "User" text field with a "Clear" button and a "1 of 1" indicator. Below this is a table with the following data:

	✓	User Name	Mgm	Type	Skills
		CARSTEDT,MAXINE M	MMC	RN	

Patient Section:

Below the user table, there is a "Patient" text field with a "Clear" button and a "1 of 1" indicator. Below this is a table with the following data:

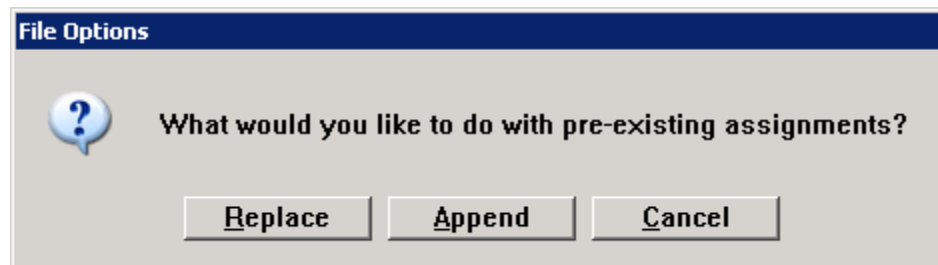

✓	Room/Bed	✓	Current Patient	Age/Sex	Acuity	Assigned
	U.213 A		TEST,MAXINE	64 F		

At the bottom of the window, there are four buttons: "Location", "Assign", "Unassign", and "File".

File options: when you file you'll be asked if you want to append or replace:

Click “append” to keep all your current patients and just add the new patients.

Click “replace” to update with all changes (Assigned new patients, Unassigned patients).

Patient Assignment/Manage List

Important Tips:

- ❑ Add individual patient using patient search
- ❑ Click to select one or more patients for your list, then click assign.
- ❑ Unassign removes them from your list
- ❑ **DON'T FORGET TO FILE!**

If more than one medication/contrast needs to be administered, repeat process steps 11 through 16 for non-Accudose or stock medications/contrast only.

Press the F12 key and then select Yes to file the Quick Charge/Doc Stock Medication screen.

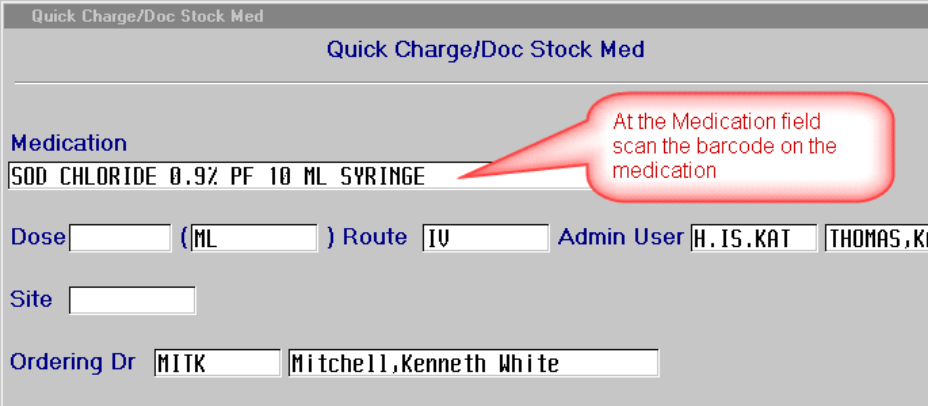

For stock medications, complete steps 7 through 10 then proceed to number 19 below.

At the Type field, enter in 'MED' and press the enter key.

A screenshot of a form with two columns: 'Type' and 'Medication (Items Per Dose)'. The 'Type' column contains the text 'MED'. A red speech bubble points to the 'MED' text with the text 'Type in MED and then press enter'.

At the Medication field scan the barcode on the medication to be administered.

A screenshot of a form titled 'Quick Charge/Doc Stock Med'. The form has several fields: 'Medication' (containing 'SOD CHLORIDE 0.9% PF 10 ML SYRINGE'), 'Dose' (with a dropdown menu), 'Route' (with a dropdown menu), 'Admin User' (containing 'H. IS. KAT'), 'Site' (with a dropdown menu), and 'Ordering Dr' (containing 'MITK' and 'Mitchell, Kenneth White'). A red speech bubble points to the 'Medication' field with the text 'At the Medication field scan the barcode on the medication'.

If allergy 'Interactions/Conflicts' are present either

STOP administration of medication/contrast until further clarification by the physician and or radiologist is obtained.

OR

CONTINUE if clarification order has been obtained by the physician and or radiologist. Document appropriate override comment, such as protocol.
